

*Now with
Unlimited
Channels!*

Whether you are a Designer or a Board Operator, WYSIWYG Perform gives you everything you need to pre-cue entire shows in real-time. Explore the possibilities for your production - "test drive" new equipment and new concepts in your virtual lighting rig. Be better prepared for your shows by producing up-to-date and accurate paperwork from a completely integrated software package. Ensure your success - give yourself the ultimate competitive edge with WYSIWYG.

Software Features

- Includes all of the features of WYSIWYG Report & Design
- 3D plotting of set and lighting designs
- Comprehensive 3D library of fixtures, accessories, truss, colours, gobos, props, etc.
- Fully integrated paperwork and CAD systems
- Live mode for real-time lighting visualization of unlimited DMX channels*
- Accurate simulation of conventional and automated fixtures
- OpenGL technology for improved real-time beam simulation
- Light emitting surfaces facilitate the simulation of lasers, neon, LEDs, projection screens etc.
- Easy hook-up to consoles and other DMX sources
- AutoFocus™ protocol lets WYSIWYG send colour, focus, intensity, etc. to console
- Integrated design mode allows for creation of lighting looks without a console or patch
- Rendering generates a photorealistic picture of your cue or lighting look
- Renderings include bounce and reflection from surfaces
- Global ambient, time-of-day lighting options
- Animated renderings available through certified service providers

- Multi-monitor support
- 12 months of maintenance, software and library updates included

Minimum Requirements

- Pentium or compatible processor 1GHz or better
- Windows 2000, ME, or XP
- 256MB RAM (512 preferred)
- 400MB free disk space (without textures)
- 1024x768 or better resolution
- OpenGL – accelerated display adapter with 16MB video memory
- WYG-it 2 DMX reception device
(except when used with certain consoles – contact the console manufacturer for details)
- Free USB port

Upgrade Suggestions

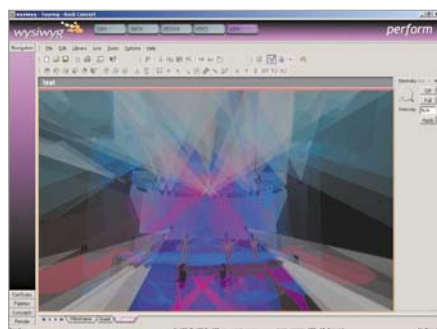

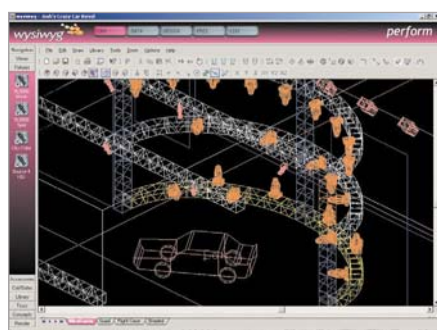

A faster CPU or multiple CPU's improve responsiveness and rendering times.

Memory requirements depend on the size of the show. Insufficient memory can seriously affect performance. Add memory if there is excessive disk activity.

A high-performance OpenGL accelerator card significantly improves the performance of real-time simulation.

Standard-product descriptions

WYSIWYG Report: This is the basic WYSIWYG CAD package. It allows lighting professionals to create CAD plans of their productions along with a completely integrated paperwork database. Create and output scaled lighting plots and all lighting paperwork including fixture schedules, hook-ups, pipe tapes, color and gobo lists. WYSIWYG Report is compatible with all Windows printers and plotters and can also be connected to a 'pipe tape printer.'

WYSIWYG Design: This WYSIWYG package includes all features available in WYSIWYG Report and adds a full 3D environment with shaded and isometric views. It includes Cast Software's comprehensive and detailed libraries of fixtures, truss, accessories, textures and materials. WYSIWYG Design allows lighting professionals to create lighting looks and generate photo-realistic renderings including reflected light and time-of-day lighting effects.

WYSIWYG Perform: This WYSIWYG package includes all of the features available in WYSIWYG Design plus the added ability to pre-cue entire shows in real-time. A DMX console can be connected to the computer, and WYSIWYG Perform will simulate the exact effect of the console's output on screen in real-time. (Connecting to a console for pre-cueing requires an interface device or approved network connection.)

WYSIWYG Network: This WYSIWYG package can be custom ordered from CAST. WYSIWYG Network allows large installations to purchase multiple WYSIWYG licenses and have them available across a network. Any number of licenses at any combination of product levels can be purchased. (A minimum of three licenses is required.)

Educational-product descriptions

WYSIWYG educational products are available for any school or educational program as well as individual students and faculty. These products include the Educational Editions of WYSIWYG Report and Design and WYSIWYG Learn.

WYSIWYG Report and Design – Educational Edition: These special versions contain all the features of the standard WYSIWYG Report and Design products. They include a limited license for educational use only and are available to Students and Faculty. WYSIWYG Report – Educational Edition can be upgraded to WYSIWYG Design – Educational Edition using Upgrade 3010A1117. Both Educational Editions can be upgraded to full WYSIWYG functionality 6 months after registration using Upgrade 3010A1116 or Upgrade 3010A1118.

WYSIWYG Learn: This special WYSIWYG package is available only to educational institutions. WYSIWYG Learn incorporates a multiple seat license allowing 10, 20, 30, or 40 users to run WYSIWYG Report or Design simultaneously over a network. Additionally, for every 10 seats, any one user can also use the WYSIWYG Perform simulation software. WYSIWYG Learn includes the WYSIWYG dongle and software

For institutions without a network – consider using the Educational Editions of WYSIWYG Report and Design in the appropriate quantities. (4 x Educational Report + 1 x Educational Design = 5 user learning system for \$1,115.00.)

WYSIWYG Training: WYSIWYG training is a critical and Mandatory component for most educational installations. Training is available through CAST and/or Authorized Wysiwyg Trainers (AWT) technical services. Contact technical services for pricing and scheduling.

WYSIWYG Educational products are for use in educational settings only and are not available for commercial use.

How to Order WYSIWYG Products?

There are 4 ways to place an order for our WYSIWYG Products. We will begin to accept orders on **January 4th, 2005.**

- 1) **On-line (B2B)** - This feature will be available in February of 2005. Each dealer will be assigned a user-id and password to place an online order. Details will follow shortly.
- 2) **Via Telephone** - Dial 1-(877) 989-2278 (US and Canada Only) or 1-(416) 597-2278 and ask for Customer Service.
- 3) **Via e-mail** - to sales@cast-soft.com
- 4) **Via fax** - 1-(416) 597-9594.
